

Power Your Business's Growth with Energy-Efficient Rebates

Make your farm or agriculture business a more sustainable and eco-friendly operation without the high price tag! FirstEnergy's Pennsylvania utilities offer rebates on a range of energy-saving projects that not only allow you to cut down on your energy costs, but also provide greater efficiency on day-to-day operations.

These energy-saving projects are perfect for livestock and dairy farms, greenhouses, crop farms, indoor agriculture, on-farm processing facilities, and more.

- Agriculture Process Lighting
- High-Volume Low-Speed Fans
- Livestock Waterer
- VFDs for Vacuum Milk Pumps
- Dairy Refrigeration Tune-Ups
- Engine Block Heater Timer

FirstEnergy's Pennsylvania utilities offer a suite of programs to benefit all customer sizes and project types. To view all available Commercial and Industrial offerings please go to energysavePA-business.com.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
