

LIMITED-TIME OFFERING

Solar Incentives Are Now Doubled

For a limited time, you can **receive twice the incentive dollars**. If you've been holding off on starting a solar project, now's the time! Apply before **September 27, 2024**, and you can receive **\$0.10 per kWh displaced** — that's double the standard solar incentive of \$0.05 per kWh.

Qualifying solar projects must meet the following requirements:

- The customer's retail tariff must be eligible for participation in FirstEnergy's PA Act 129 program.
- PV project must be compliant with FirstEnergy's Pennsylvania electric companies retail tariff(s); including all interconnection and net metering requirements.
- The PV project must be installed on the load-side of a FirstEnergy commercial/industrial customer's meter.
- Auxiliary battery storage systems for the PV project are not eligible.
- Customer owned or leased PV projects are eligible.

Visit the website for the comprehensive list.

Take advantage of this limited-time offer.

Contact us at **844-323-6399** or **CIFirstEnergyPA@franklinenergy.com** today! You can also learn more by visiting the **Solar Photovoltaic Program** page on **www.energysavePA-bizsolutions** or by scanning the QR code.

Terms apply. See program website for details.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com. By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights, which refers to the demand reduction associated with any energy efficiency and peak-demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs. PA customers who have existing contracts with third party demand response service providers that were executed before June 1, 2021 (i.e., the start of Phase IV of Act 129 EE&C), have the option of retaining the PJM capacity rights associated with EE&C projects when participating in FirstEnergy PA Act 129 energy efficiency and peak demand reduction programs. FirstEnergy's Pennsylvania utilities, their parents, subsidiaries, employees, affiliates, and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.
