The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit [energysavePA.com](http://energysavePA.com).

By participating in these energy efficiency and peak-demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights, which refers to the demand reduction associated with any energy efficiency and peak-demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy-efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs. PA customers who have existing contracts with third party demand response service providers that were executed before June 1, 2021 (i.e., the start of Phase IV of Act 129 EE&C), have the option of retaining the PJM capacity rights associated with EE&C projects when participating in FirstEnergy PA Act 129 energy efficiency and peak demand reduction programs.

FirstEnergy's Pennsylvania electric companies, their parents, subsidiaries, employees, affiliates, and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.

## Energy Solutions for Business

The Energy Solutions for Business Program can help you reduce energy costs in a way that works for you. We can help offset the upfront costs of equipment enhancements with our many rebates, and those enhancements will save you money and energy. All commercial, industrial and other nonresidential customers, including GNI customers, located within FirstEnergy Pennsylvania electric companies' service territory are eligible to participate.

### Our programs include:

#### 1. Prescriptive

This program provides incentives for qualifying energy-efficient upgrades and installations.

#### 2. Instant Discounts

This program provides instant discounts on qualifying food service, lighting and HVAC products when you purchase from local participating distributors.

#### 3. Custom Equipment

This program provides incentives for pre-approved, energy-efficient retrofits and system/process improvement projects that include technologies that do not meet the eligibility criteria for other Energy Solutions for Business Program projects.
