## LIMITED-TIME OFFERING

# GET UP TO 2X THE INCENTIVES ON ENERGY EFFICIENCY UPGRADES

By participating in the C&I Energy Solutions for Business Program and helping FirstEnergy's Pennsylvania electric companies keep the grid reliable for our communities through energy-efficient projects, your business can now earn up to twice the incentives. Whether your organization is large or small, improving your lighting systems or upgrading any number of operational systems, you can receive incentives for energy savings (kWh) and permanent demand reductions (kW) for qualifying projects. But submit your project soon! Incentives this enticing won't last long.

Terms apply. See program website for details. Must apply for and receive preapproval between Dec. 1, 2024, and May 31, 2025. The preapproved project will be eligible for increased incentives for a period of 12 months from the preapproval date. All EM&V must be completed by May 31, 2025. Should the project not be completed within 12 months from the preapproval date, written approval will be required by FirstEnergy's Pennsylvania electric companies to maintain project status; otherwise, the project application will be processed at the original incentive rate. The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit [energysavePA.com](http://energysavePA.com). By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights, which refers to the demand reduction associated with any energy efficiency and peak-demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs. FirstEnergy's Pennsylvania electric companies, their parents, subsidiaries, employees, affiliates, and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor. PA customers who have existing contracts with third party demand response service providers that were executed before June 1, 2021 (i.e., the start of Phase IV of Act 129 EE&C), have the option of retaining the PJM capacity rights associated with EE&C projects when participating in FirstEnergy PA Act 129 energy efficiency and peak demand reduction programs.
