

Instant Discount Program Commercial Lighting

Met-Ed • Penelec • Penn Power • West Penn Power

Hit the Switch on Instant Savings for Your Lighting Needs

Did you know that **nearly 20% of all electricity** consumed by commercial buildings comes from lighting?¹ Cut down on these costs by installing energy-efficient products!

FirstEnergy's Pennsylvania electric companies are here to help you get started with instant discounts on cost-effective energy-efficient upgrades for your business. With these offers, you start saving right away!

Qualifying equipment is subject to specifications, terms and conditions as outlined by FirstEnergy's Pennsylvania electric companies. All rebate values are subject to change and are current through May 31, 2024. Visit energysavePA-business.com for individual program requirements and specifications, along with the most up-to-date eligible rebate measures and values.

FirstEnergy's Pennsylvania electric companies offer a suite of programs to benefit all customer sizes and project types. To view all available Commercial and Industrial offerings please go to energysavePA-business.com.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
