

# Instant Discount Program Food Service

Met-Ed • Penelec • Penn Power • West Penn Power

## Whip Up Instant Energy Savings for Your Kitchen

Keep high utility costs out of the kitchen with instant discounts on energy-efficient appliances! These discounts can help lower the cost of doing business for café, restaurant, and institutional kitchen operators.

Plus, energy-efficient appliances help reduce energy expenses, as well as water use and maintenance costs. The same features that enable more efficient energy and water use contribute to an extended product lifetime, meaning your savings are likely to last that much longer.<sup>1</sup>

Qualifying equipment is subject to specifications, terms and conditions as outlined by FirstEnergy's Pennsylvania electric companies. All rebate values are subject to change and are current through May 31, 2024. Visit [www.energysavePA-bizsolutions.com](http://www.energysavePA-bizsolutions.com) for individual program requirements and specifications, along with the most up-to-date eligible rebate measures and values.

FirstEnergy's Pennsylvania electric companies offer a suite of programs to benefit all customer sizes and project types. To view all available Commercial and Industrial offerings please go to [www.energysavePA-bizsolutions.com](http://www.energysavePA-bizsolutions.com).

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit [www.energysavePA-bizsolutions.com](http://www.energysavePA-bizsolutions.com).

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
